ABOUT US

AVIMAN Management, LLC was founded in October 2003 by W. Levi Coleman. Their first line of business was residential renovations for homeowners and investors. Two years later, AVIMAN Management started adding commercial projects to their portfolio, forming alliances with contractors in Delaware, Pennsylvania, and New Jersey. In 2011, AVIMAN Management expanded its services to include heavy highway projects as well as installation of concrete flatwork. Shortly afterwards, they began managing projects as a subcontractor at the Philadelphia International Airport.

In 2014, AVIMAN Management had the privilege to obtain 8(a) certification, allowing them to work on federal projects for local and national government agencies through 2018. In 2016 AVIMAN Management began supplying sitework, road and bridge related materials.

AVIMAN Management continues to serve as general contractor and sub-contractor. In the capacity of construction management, responsibilities include overseeing day-to-day operations and ensuring quality controls.

Bonding Capacity – \$1,000,000

Our Mission

AVIMAN Management is committed to excellence. This can only be accomplished with a team that understands the importance of workmanship, integrity, dependability, and customer satisfaction.
